

Milk Paint

Our milk paint gives you a beautiful, natural healthy finish that will last for generations; never to chip or peel.

Early settlers brought this method of paint making to North America more than 250 years ago. Basic ingredients included milk, limestone, clay and natural pigments like coal, berries, roots, seeds and minerals all found close at hand. This resulted in a durable paint evident today by antiques showing the original milk painted finish.

We continue this tradition using the same main ingredients. Absorbed into the surface, Milk Paint will never chip or peel. Milk Paint provides a completely breathable coating and is ideal for painting plaster walls and ceilings, straw bale houses etc. Being slightly alkaline, it also naturally inhibits the growth of mould and mildew. It can be used for interior or exterior applications.

To properly protect our Milk Paint, it should be sealed with our hemp oil, beeswax, or varnish.

Simply mix with water to create a creamy consistency—it's that easy!

100% Natural

No chemicals

No VOC's

Biodegradeable

Breathable

Can be used interior or exterior

Excellent for Flooring, Decks, Furniture
& Walls

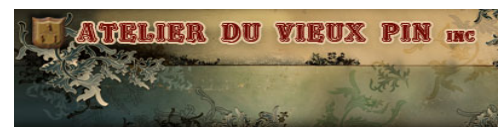

No primer required

Virtually odourless

Over 50 pre-mixed colours available

Zero VOC Interior Paint

100% Acrylic Latex

Our zero VOC 100% acrylic paint offers outstanding performance, quality, ease of application and durability!

Choosing paint colours can be a daunting task, choosing the right paint company shouldn't be!

Homestead House Paint Company has been in the paint industry for over 20 years. Taking advantage of today's technology we are able to provide premium quality all-natural and VOC free paints. We manufacture our products in Ontario and source all materials locally.

Our zero VOC paint is virtually odourless and can be easily applied over previously painted surfaces in good condition, without a primer. Ideal for hospitals, baby's rooms, schools or anywhere a clean air space is desired.

Our zero VOC paint is free of formaldehyde, solvents, coalescents and other chemicals that can aggravate respiratory conditions. Exceptional for people with chemical sensitivities.

Available in three sheens: Dead Flat, Low Sheen, Semi-Gloss

No VOC's

Contains no formaldehyde

Exceeds LEED Certification and Green Seal Standards

No primer required on previously painted surfaces

Exceptional coverage

Washable & scrubbable

Dead Flat, Low Sheen and Semi-Gloss

Unlimited colours available
